

CFV

Mission and Objectives

Mission

To develop and promote the co-operative movement as a means of satisfying the economic and social needs of people.

Objectives

Help improve the performance of member co-operatives in the provision of services to their members.

Make representations to government on legislation and policies to facilitate the development of co-operatives.

Promote co-operatives to the public.

Facilitate and promote the formation of co-operatives.

Educate co-operative members and the community at large in co-operative principles and practices.

Facilitate co-operation between co-operatives.

“Good board governance is vital for maintaining member loyalty to co-operatives. The Director training kit deserves the support of all co-operatives who seek to both improve governance by existing directors as well as develop the next generation of co-operative directors. The kit recognizes that director training must be based on the co-operative difference.”
Dr. Lawrie Dooley, Food and Agribusiness Programs Director, Monash University, Victoria, Australia.

“The Start Up Manual and Directors Kit are essential reading for all Co -operative members, directors, managers and staff - by co-operators for co-operators.”
David McKenzie, Membership and Marketing Manager, Warrnambool Co-operative Society Ltd.

Co-operatives are unique - a co-operative difference that creates a co-operative advantage.

The development and production of this brochure was funded by a grant provided by Consumer and Business Affairs Victoria.
